ORACLE

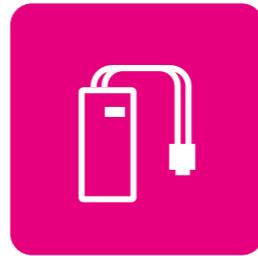

What you will need:

Calliope mini

Batteries

Cardboard

Transparent paper

Scissors

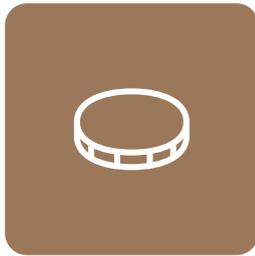

Acrylic Ball
(Transparent 10 cm [4"])

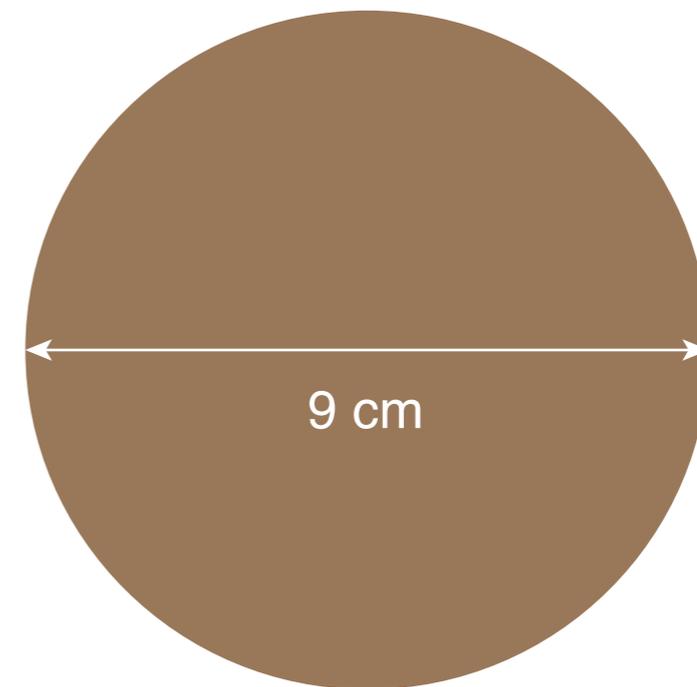

Rubber band

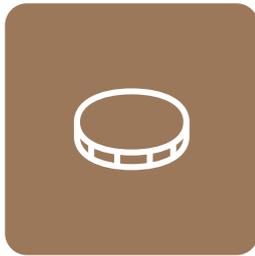

Stickers

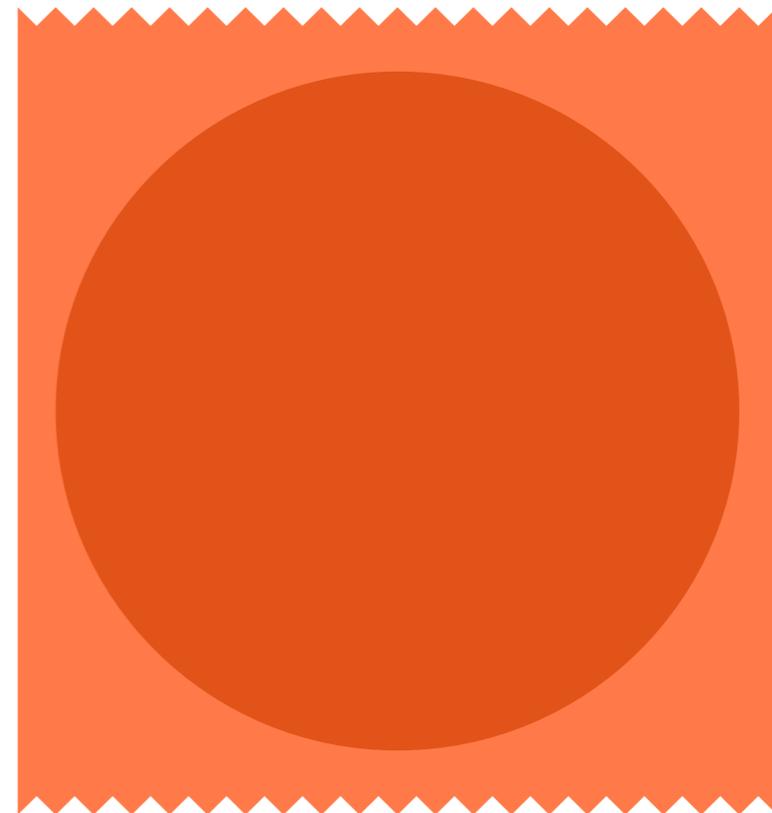

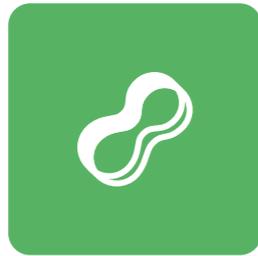

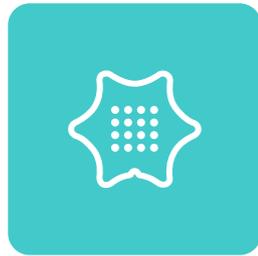

Cut a circle of 9 cm [3,5"] diameter out of the cardboard.

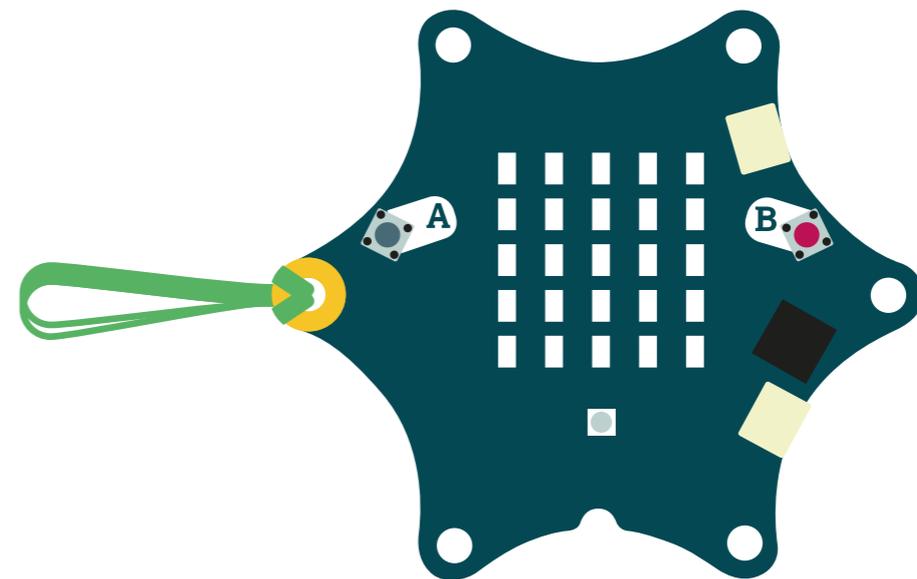

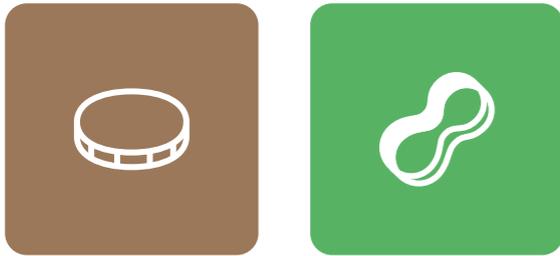

Decorate the cardboard as you like. For example, you can wrap it in transparent paper.

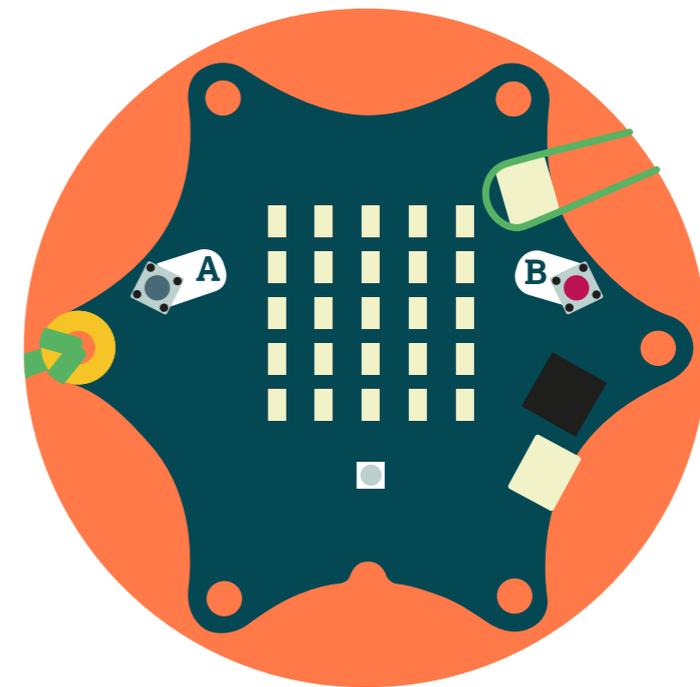

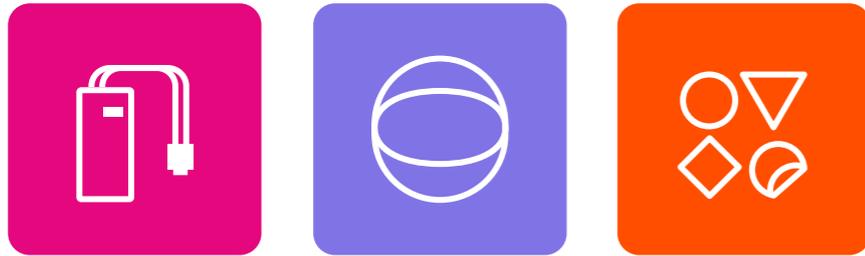

Attach a rubber band to the Pin 0 of your Calliope mini.

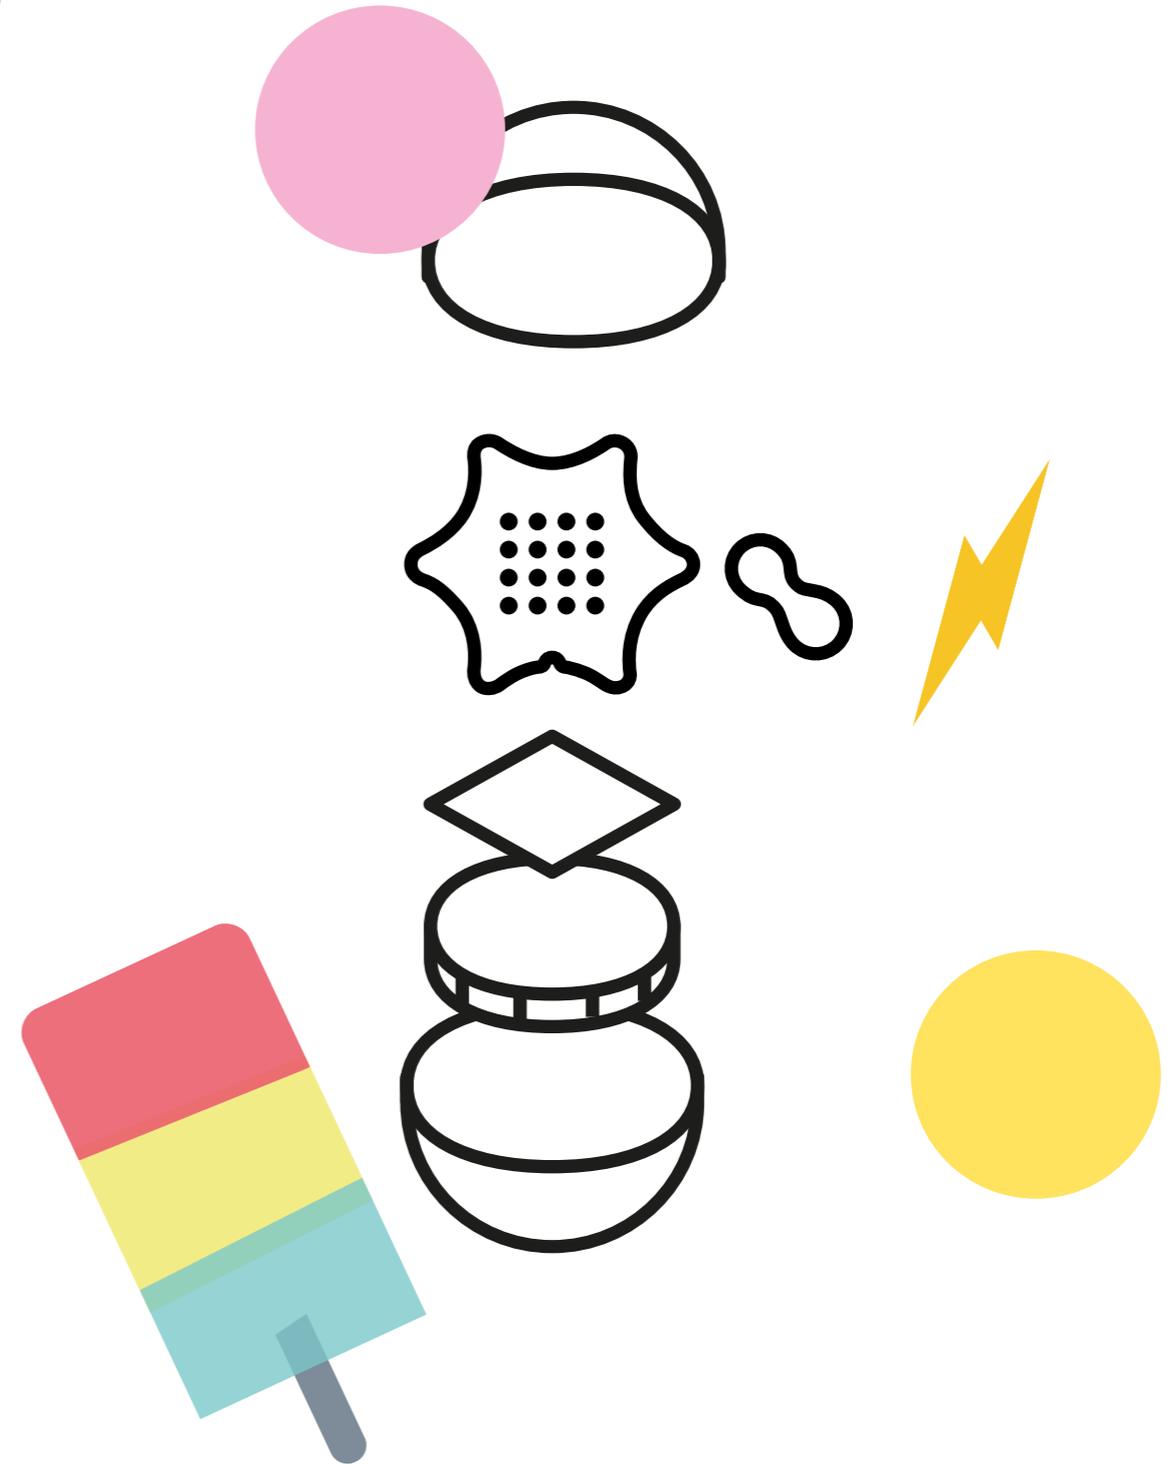

Fasten your Calliope mini to the cardboard by putting the rubber band around the cardboard disc and tightening it e.g. around a Grove connector.

Decorate your ball with colorful stickers.

Finally, connect the battery compartment to your Calliope mini and insert everything into the ball.
